

14. (original) The device of claim 3 wherein said at least one condensation tube comprises an intake filter located at said end for reducing the number of solid particulates from entering said device.

15. (original) The device of claim 3 further comprising means for pasteurizing said water.

16. (original) The device of claim 6 wherein said reflector apparatus is a trough reflector.

Remarks/Argument

The Office Action mailed September 13, 2006 has been carefully considered.

In response to the Office Action the Applicant has amended the claims by withdrawing claims 1 and 2. Given this, the applicant submits the application is in condition for allowance, which is respectfully requested.

Respectfully submitted,

By:
